# SRSO INSTITUTE OF MANAGEMENT AND SKILL DEVELOPMENT

## Introduction

The Institute of Management and Skills Development is an integral training arm of SRSO, an apex body of human development in northern Sindh which is envisaged to work independently as an integral arm of SRSO not only to cater training needs of SRSO alone but it is also mandated to provide training opportunities to the rapidly growing development and corporate sectors, national and multi-national donor organizations, NGO and INGOs functioning in the area.

Previously functioning as HRD Sector of SRSO, it has provided capacity building / skills enhancement training to the people in thousands that includes SRSO staff members, community organization members and youth of community since its inception. According to rough estimates, over 100,000 poor community members and youth have benefited from these training and according to an impact study over 80 % of these training beneficiaries were employed in various organizations and learning livelihood for their families.

## Developing Human Capital for Better Tomorrow

### Goals & Objectives

Destined to become a full-fledged independent Training and Learning Institute the broader goals of IMSD are to serve as a hub of human development providing training and learning opportunities to the people, particularly to the youth of area for improving their skills and enhancing their knowledge to meet the increasing challenges of competitive market.

### IMSD Management & Faculty
