Registered under Section 42 of the Companies Ordinance 1984 as not-for-profit Organization, SRSO is currently present in 15 districts, namely Sukkur, Khairpur, Sanghar, Ghotki, Naushero Faros, Shaheed Benazir Abad, Shikarpur, Jacobabad, Larkana, Kashmore-Kandhkot, Qambar-Shadadkot, Umer Kot, Badin, Mirpurkhas, and Thatta.

and technical capacity. Human development of rural People and the government is supported in forging a partnership and inculcating the sense of ownership among the people.

SRSO is presently entrusted with the responsibility of fostering a countrywide network of community organizations at the grassroots level in 15 districts of Sindh and works in the various sub-sectors while applying the participatory development approach of sustainable development.

E-UCBPRP (Expansion Union Council Based Poverty Reduction Programme)

The Union Council Based Poverty Reduction Programme (UCBPRP) is a 1st Union Council (UC) based Poverty Reduction model of Pakistan and that was a big community development initiative to poverty reduction at the rural and unprivileged community of rural Sindh by Government of Sindh. This was an initiative of Sindh Rural Support Organization (SRSO) and the Government of Sindh for the alleviation of poverty through participatory approach at the household level. The programme has successfully completed the 1st phase with golden words of success stories and poverty graduation among the rural community in projected areas which are a real witness to the success of the programme. Later the European Union also replicated the same model and extended this programme into 8 districts of Sindh with a programme titled as SUCCESS. This programme has been designed to alleviate the poverty of targeted communities of the poorest in rural Sindh. In the year 2016-17 GoS has included the UCBPRP for further 6 districts in Annual Development plan which was started in June-2017 in districts: Khairpur, Sanghar, Umer Kot, Mirpurkhas, Badin and Thatta with a financial assistance of 4.9 Billion by Government of Sindh.

The primary objective of UCBPRP is improving the quality of life of the rural communities, especially that of the poorest of the poor by an identification tool of Poverty Scorecard (PSC) Survey which

District Thatta UCBPRP Launching ceremony Report

was an android based with a Software that collects the data and GPS coordinates for tracking purposes by writing all the details in the survey to provide technical assistance through this programme to alleviate the poverty. Later, the heart of all activities through the main conceptual package of Social Mobilization starts in these communities that have been identified for future programme interventions. The process of Social Mobilisation this involves organizing rural communities into “organizations’ of the poor” at the community, village and union council level. This structured approach entails organizing rural communities into 'organizations’ of the people' at the muhalla (neighborhood) level into Community Organizations’ (Cos) and then into a federation of these COs to Village Organizations’ (VOs) at the village level. These VOs are then federated at the union council level into Local Support organizations’ (LSOs). These organizations are formed and owned by local communities, and undertake a wide array of development activities such as village-level community Investment Fund (CIF), income-generating Grant (IGG) initiatives, VTPs and social sector Programmes, with the technical support of the GoS. UCBPRP in Sindh has some unique features.

First, the programme is focused on women, and the poor and poorest households, identified through a Poverty Score Card (PSC) survey. Second, the programme is the first ever major project of the GoS that is being implemented through community participation. Third, the programme is highly intensive in its development packages and coverage and is concentrated at the union council level. Last but not least, the programme very quickly covered the programme union councils by organising communities: most of its targeted activities have been implemented within only 6 months i.e. PSC survey has completed successfully which was a huge task. UCBPRP aimed to remove common hurdles faced by the poor that weaken their social capital: it seeks to create economic/productive assets through a self-help methodology by providing access to community managed micro loans, income generating grants, and creating employment opportunities by training youth in technical skills and engaging the trained pax into different industries for jobs perspective.
