## A. Executive summary

The flood in Sindh is escalating & inundating more villages, infrastructure, and districts displacing many more people and animals directionless. The flood water started inundating when it breached the Thori Protection Band near Kandhkot town and it flooded Kashmore, Shikarpur, Jacobabad and Shehdadkot districts and now curving towards the Dadu in Manchar Lake which has become the new and most uncertain point and may cause inundation in Dadu and surrounding areas. The majority areas of the above districts were forcedly evacuated and caused massive human migration. Government agencies, politicians, leaders, activists both political and social, line department seems in the state of exhaustion and falling hopes both in stopping the water to more inundation, providing the people settlements and security and other basic. The situation is worsening day by day as current settlements of these government building and open sky grounds. The humanitarian aid agencies are trying their best to address the needs of food, shelter, water, sanitation, medical aid, and measuring the scale and scope of their work. Despite of the all mobilization of all the above agencies, the reaching out the affected people has become a gigantic task. More resources are required in the shape of aid workers, volunteers, material and financial. The trained staff and volunteers who know the intensity and gravity of the disasters are too not as much as grave as the disaster is. Having said all this, the new opportunity is behind to this disaster, which is to mobilize people to be calm and peaceful. Sindh does not afford to have food riots, conflict, and lawlessness. We all have to work together to serve 5 million people and more 15 million livestock.

The threatening news came out when PP Protection Band breached and water is moving fast towards Thatta, Sijawal, Daro, Bathoro, and other small towns of district Thatta and engulfed with all sorts of miseries.

In the situation, the nation has fallen in, SRSO Chairman Shoaib Sultan Khan; the members of the Board and management along with all team members are committed and are working round the clock to contribute in lessen the effects of flood.

SRSO stepped in relief activities from August 09, 2010 starting from Kashmore, Ghotki, Shikarpur, Sukkur, Khairpur, and Noshero-feroz. Later on our teams went through helicopter organized by Relief Commissioner of Sindh and WFP to distribute food on the behalf of WFP in Jacobabad city. SRSO has been responding to the government calls, facilitating and coordinating with UN agencies and providing information to different humanitarian aid agencies through its emergency cell set up in Sukkur.

Since, the relief work has got the real momentum; there is still an acute shortage of food, shelter, sanitation, clean water and health and hygiene material. SRSO has started now focusing on mobilizing IDPs (90% of them are from organized Community and are members of Cos and

VOs) to take care of hygiene and organize themselves to be a disciplined recipients of the relief goods. Also the efforts are being put to generate more resources to fulfill the vast emerging need. WFP, UNICEF, PPAF, Engro Foundation, Relief Department Government of Sindh, USAID through RSPN, Jahangir Siddiqi (JS) Foundation, OMV and individuals such as Aniqia Sultan, Adeel, GOAL Ireland, Software Industries Karachi, and many more have been continuing supporting SRSO. SRSO urgently needs more resources, which are expected to come.

### SRSO Relief Operation

#### SRSO cooked food support (Some of this portion is to be picked up by GOAL)

This drive is the supply of cooked food to families which are in camps in SRSO's operational area of nine districts and the basic aim of the drive is to provide food to those who are in remote camps and where government support, other relief work agencies or philanthropists has not yet reached. Affected families are assessed and provided a food token and then food supplies the following day. The contents of the supplies are 1 Kg cooked rice and 15 liter water per household.
