**International Day of Older Persons 2016  
1st October - Take a Stand Against Ageism**

The International Day of Older Persons is an opportunity to highlight the important contributions that older people make to society and raise awareness of the issues and challenges of ageing in today's world.

The theme for 2016, Take a Stand Against Ageism, challenges everyone to consider ageism – the negative attitudes and discrimination based on age - and the detrimental impact it has on older people. For older people, ageism is an everyday challenge. Such discrimination shapes how

older persons are treated and perceived by their societies, including in medical settings and workplaces, creating environments that limit older persons' potential and impact their health and well-being. The failure to tackle ageism undermines older persons' rights and hinders their contributions to social, economic, cultural and political life.
