SUCCESS STORY of Ms. Nooran w/o Jumo Khan

"We can't save people from poverty by giving money, but we can get them out by giving them consciousness"

Ms. Nooran w/o Jumo Khan, resident of Village Abdullah Domki UC Qais Ali Bilawal has tremendously improved herself and her family with the help of SRSO PO of PPAF, Ms. Nooran has 5 children her eldest son married an educated girl, and moved to his father-in-law, Ms. Nooran's eldest son was one of the few sources of income, but after marriage, he left his parents out. It was difficult for Ms. Nooran's husband to bear all expenses of the house, and he had to pull the donkey cart because he had no choice but to do so.

During the interview, Ms. Nooran w/o Jumo Khan said that, "I am a naive and poor woman I teach the Quran to the children of my village, my son left me after his marriage he was the only good resource of income to me, he used to come to see me, but I never showed him my condition, my second son is very sincere and kind to us, he always asks me to open him a shop or set him some business but, I did not have the money for it, my husband and I earn very little from the donkey cart, stitching, and rili art. Seeing us in such dire straits, my two daughters started working on the land of the landowner, I remained silent and kept praying for help, and Allah answered all my prayers with the great visit of SRSO PO of PPAF".

"SRSO's (PO of PPAF) team visited the village, and they went from house to house, to record data on the extremely poor to which my name was added too, I asked them to give me a motorcycle loader for my son, a few days later SRSO's (PO of PPAF) teams came back to us and asked us to form a committee of three members, and after all processes, I got a motorcycle loader of PKR. 96,000 for my son, (60,000 given by SRSO PO of PPAF, and I had added the remaining 36,000 from my income)".

Talking about her loader income, she happily said, "My son earns PKR. 1000 to 1500 per day from the loader, now we can eat good food, and I saved 20,000 from loader income and started two new businesses, one of my businesses is of wheat and rice trade, and I utilize my donkey cart and loader for too, I have installed a weighing scale in my house; I measure wheat rice of all villagers and earn PKR. 500 to 1000 daily, my second business is a Spaza shop which I run at my home and earn PKR. 100 to 150 daily, I am very grateful to SRSO (PO of PPAF) for helping us get out of this predicament and poverty"

After meeting up with Ms. Nooran Jumo Khan I really realized, really "We can't save people from poverty by giving money, but we can get them out by giving them consciousness"

Ms. Nooran Jumo Khan is happy with her assets (motorcycle loader, weighing scale, and spaza shop), and she is thankful to Almighty Allah, SRSO, PPAF, IFAD, and GOP.

This tent city has been managed in collaboration with Tayaba Welfare International Association and provided 70 tents, dry ration bags, hygiene kits, MHM kits, and purified water through a water tanker on daily basis. In addition, SRSO's Physical Infrastructure and Technical Development (PITD) team designed an Echo-Friendly Pit Latrine and installed 5 latrines with the funding of Tayaba at the tent city for proper sanitation and hygiene for settled IDPs. This is an innovative- idea of the SRSO PITD team which drives and materialized due to a shortage of construction materials and constraints in the installation during rains. These designed pit latrines were executed and used as well successfully. This has been made from locally available raw materials i.e. Traui and pater/ Canna with local fencing and a covering cloth sheet to ensure privacy. These pit latrines are highly applauded by the community, visitors, and administration.
